

48-Hour Discussion Group
Conference Call
4/24/2019

Call Participants: Johnny Henson, Mark Ritter, Steve Schafer, Mary So, Alice Miller

During this brief follow-up call: Alice opened the call by directing participants to the proposed language previously created regarding 48-hours not including the day you call. Mary provided an update to the group on the different perspectives she is hearing within the industry. It was noted during the call that not including the day of the call does not change the weekend / holiday criteria – it remains the same – weekends and holidays do not count within the time frame now and will not count if this change is made to Ohio's excavation laws.

Johnny, discussion group spokesperson, will provide an update during the April 30th OUDPC meeting, and a follow-up call will be scheduled after this meeting.
