811 Day at DayAir Ballpark was a good success.

- 30 People attended.

ICY Event 10/11

- Cardinal Shooting Center Sporting Clays

Locate Discussions

Are electric services that are not attached located? A new house as an example.

- No if the service is not hooked up at either end it cannot be located because it is not grounded.
- Locating does not give out prints.
- Reach out to Construction Control to request prints.
 - Builders in new build do not back flag often.
 - Greg Weathers oversees Design Engineering.

Asphalt Milling <4" not requiring locates has been submitted as a change to the committee at the state level.

- Typically, it turns into a wasted amount of time as the markings are destroyed over and over.

Northern Lights

- Staying out ahead but fighting fiber damages.

Stake Center

- Joe Costell – (380) 240-1023 Regional Manager

Damages / Near Misses

Discussions about what happens with damages for different companies. The loss recovery companies. The facility owner and damage outcomes.
