

2025 FALL

EXCAVATOR SEMINARS

Professional excavators, municipal workers, operators, designers, utility locators, and other industry stakeholders will receive training and education of ORC 3781.25-38 and Universal Marking Standards from the subject matter experts at OHIO811, the protection service for underground utilities.

There is no fee to attend, but space is limited. Events are hosted by OHIO811 Education & Safety Liaisons and include required excavator training in a collaborative format that offers questions and answers to safe excavation practices.

OHIO811 Excavator Seminar are approved for the following CEU/Certifications:
